Product Summary

3-Way 1/4" FNPT Trim Valve

Product Description

The **HF0253** 3-way trim valve is suitable for use in regular (175 psi) and high pressure (300 psi) sprinkler systems. This item features three (3) 1/4" (DN 8) Female NPT connections points; one inlet and two outlets. A cast arrow on the body indicates direction of flow. Outlets do not act independently of each other and will both flow once the stem is raised.

Engineering Specifications

Wilson & Cousins's HF0253 is a trim valve intended for use on sprinkler systems and compatible with operating pressures up to 300 psi (2068 kPa). The valve features three (3) 1/4" Female NPT (DN 8) connections; one inlet and two outlets. A cast arrow on the body indicates direction of flow. Both outlets flow when the stem is opened and are not independent of each other.
