

## IE7-V7

**Product Categories:** [Uncategorized](#)

**Product Page:** <https://www.wilsonandcousins.com/product/ie7-v7/>

### Product Summary

26"x13" Red Swinging Hose Reel

### Product Description

The IE7-V7 can hold either 2" (51 mm) or 2.5" (65 mm) hose (please see chart below for capacities). The 26" (660 mm) red swinging hose reel is used as an efficient, compact package providing stationary hose storage and easy deployment of collapsible hose. The hose reel is made of cold-rolled tubular steel rims and solid

steel spokes and when mounted on the rugged steel brackets can swing at 180 degrees. The open design also helps with faster hose drying after use to prevent mold and mildew. The reel can be used in fire protection or washdown applications.
